Mabel Katz Presents Zero Frequency® to Universidad Autonoma Del Noreste and Colegio Americano in Mexico, Marking Ho’oponopono’s Debut to Higher Education

In October 2012, for the first time, internationally-acclaimed speaker, author, and seminar leader, Mabel Katz presented her Zero Frequency® workshop to the faculty and staff of Universidad Autonoma Del Noreste and Colegio Americano.

Zero Frequency® is the state of pure inspiration and infinite possibility that comes through the practice of Ho’oponopono, an ancient Hawaiian art of problem solving. At Zero, you let go of fear, judgment, and old stories, creating space for creativity, receptivity, and heightened awareness.

According to Mabel, “Tuning into Zero is being at one with the Universe and at peace with the world around you. At Zero, you discover your true identity – the key to finding paradise.”

A foremost authority on Ho’oponopono, Mabel has spoken before national senates and other influential government bodies including those of diverse ethnicities. In 2011, she spoke at the United Nations, launching *Peace Within Is World Peace*—her world peace initiative. Recently, Mabel received the prestigious 2012 *Mil Milenious de Paz* Peace Flag, officially recognizing her as one of the world’s pre-eminent Peace Ambassadors.

Mabel’s October presentation marks Ho’oponopono’s debut to higher education, another dream-come-true for Mabel as well as a pathway to higher consciousness.

Here is what the participants had to say:

Thank you so much for sharing your experiences and knowledge regarding the Zero Frequency® Program. Our personnel was pleasantly surprised with how something so simple ... can be so powerful and have the ability to transform us and, therefore, offer our university a greater probability of development...Going

back to zero, and letting go of negative emotions and habits can open up a new world. It's like starting over, from a new platform, where we are able to keep all of our knowledge and abilities, but eliminate all of our self imposed limits...I wish to reiterate my deep respect and gratitude. --Higinio González Calderón, Dean, Universidad Autonoma Del Noreste

*We hereby wish to emphatically recommend **Licentiate Mabel Katz**, whom, on October 9th of the current year, presented the Conference Zero Frequency® at this Institution. The Conference imparted an excellent philosophy which will allow us to implement important changes in ourselves and in our environment...We wish to recommend Mabel's professional services to anybody interested in obtaining knowledge regarding a new way of thinking. --Saltillo, Coahuila, Jorge Alanís Villareal, Teacher, General Director, Colegio Americano*
